Your plants will begin to be covered with flowers. Often plants are ready for harvesting after 7 - 10 weeks in a flowering cycle. A word from the Editor before the sun comes up!

Hello Campers!

You lot are fuckin' brill! You can piss on my boots and tell me it's raining any day of the week. Another month and another rise in circulation.

A big thanks to all who have sent in silly comments, letters and various items of fruit. Oh and a big thanks to the Cherry sisters who sent in some filthy pictures and articles of underwear. (I've had them on for three days now and I'll send them back soon)

Keep on the Herb and keep writing in. It's your mag remember.

Just one more thing before I forget! Apologies to anybody under 3ft 6in for the misprint on the front cover stating that we had ten midgets to give away. Some soft twat in the Editorial department has got the wrong end of the stick. It should have read WIN A PACKET OF MIDGET GEMS! true, we did have ten packets to give away but some greedy bastard has scoffed the lot.(he's probably pissed by now: southern puff!) We'll make amends in the next issue. See ya soon!

Death Row

Two men on death row were scheduled for back to back executions. On the appointed day, the warden asked each if he had a last request. "Yes, sir," the first said. "I'd really like to hear Wannabe by The Spice Girls ones last time." "And you?" the warden asked the other. "Please," the second condemned man pleaded, "kill me first."

Young Lovers

A young man stopped his car down a remote Lover's Lane, deep in the countryside. He reached over and began to make all the usual moves. The girl pushed him away and said, "I am really sorry to tell you this, but I'm really a prostitute and if you want a fuck it's twenty quid."

The young man who hadn't had a shag in months reluctantly paid her and they had sex. Afterward, he sat silently behind the wheel, making no effort to drive away.

"Why aren't we going?" asked the girl.

"I'm really sorry to tell you this," he said, "but I'm really a taxi driver and the fare back to town is twenty five quid."

Ape Man

After six months on the dole, an actor applied for a job at Chester Zoo. Much to his dismay, he found the position required that he put on a gorilla suit and jump around a cage in imitation of it's former occupant.

Within a few days, however, the actor began to enjoy the attention he received from visitors as he pounded his chest and swung from bar to bar. One day, in a moment of exuberance, he swung out through the top of his cage and into the lions den next door. The crowd gasped. The actor, frozen with fear, watched as the beast moved towards him. He began to scream for help.

"Shhh. Be quiet," the lion whispered, "or we'll all lose our fucking jobs!"

Farmer Brown.

Farmer Brown had been screwing one of his pigs for four years, when he was suddenly hit by pangs of conscience. It tortured him so much that he decided to tell the priest about it in confession.

The priest was shocked and could only say to farmer Brown, "Well tell me, was the pig a male or a female?" "A female, of course," said Farmer Brown. "What do you think I am - some sort of queer?"

Monkey Business

Mick had two pet monkeys which he loved very much, but they died within two days of each other. He decided to take their bodies to a taxidermist so that they would be with him forever. The taxidermist gave him an estimate for the job and asked if he wanted them mounted. "No," came the reply. "Just have them shaking hands."

That's A Blow

This little boy got up in the middle of the night to go to the bathroom and passed his parents' bedroom. Noticing that the door was ajar, he walked in and saw his mother gobbling his father. The boy walked out of the room scratching his head and muttering, "And they send me to the

Jokes Folks!

Wee Wee

Tom's dream was to marry a sweet and innocent virgin. He had been going out with Jane for two months, when he decided to give her a test. As they drove along he unzipped his jeans, turned to her and said, "Do you want to see my Wee Wee?"

She yelled, "No! No! Please zip up your jeans."

Instead of being annoyed, Tom was pleased. On the evening of their engagement to be married, he tried the same thing, with the same result. Finally on their wedding night, they were alone in the hotel room when he unzipped his fly and said to her, "Darling, now you can look at what I've got here", and proceeded to get his cock out. She looked at it and replied, "Oh, what a sweet looking Wee Wee!" Tom said "No darling - you don't have to call it a Wee Wee now: you can call it a cock."

She looked at it a while and then said, "No Tom, that's a Wee Wee. A cock is fourteen inches long and black."

Girl in the pictures: "the man next to me is masturbating!"

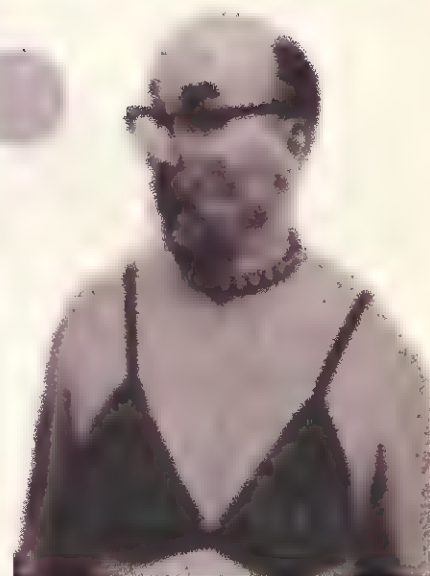

Girlfriend: "ignore him"

"I can't; he's using my hand!"

Tough Tit

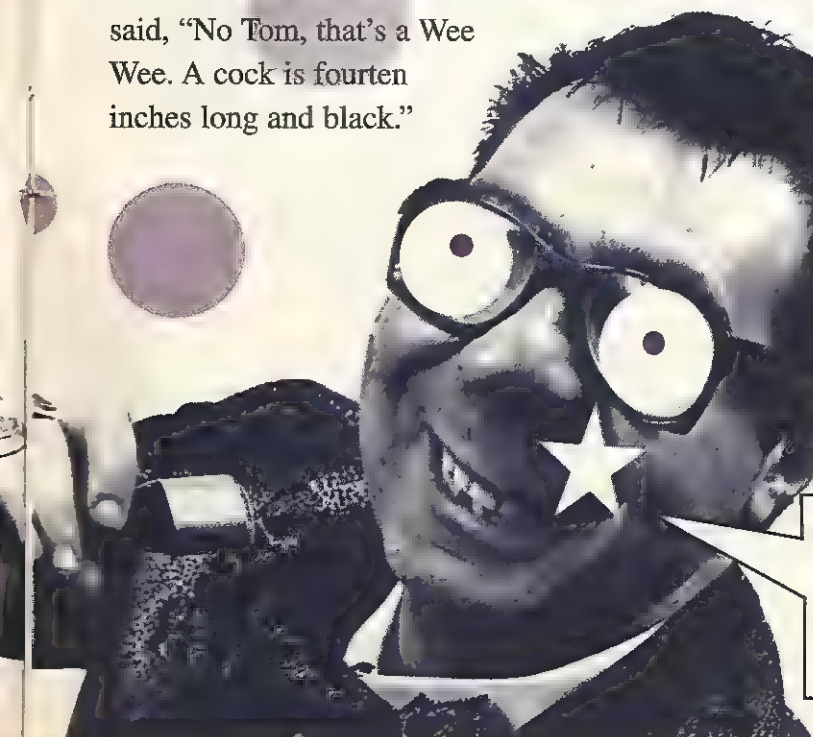

Mick left for a two day business trip to London. He was only a few streets away from his house when he realised he'd left his plane ticket on the mantelpiece. He returned home and quietly entered the house. His wife, in her skimpiest nighty was washing the breakfast dishes. She looked so inviting that he tiptoed up behind her, reached out and squeezed her left tit.. "just leave one pint, Mick won't be here for breakfast tomorrow"

An eminent teacher and thinker once expressed his philosophy of life succinctly. "When it all boils down to the very essence of truth," the philosopher said, "One must live by a dogs rule of life: If you can't eat it or fuck it, piss on it!"

A fellah wakes up one morning to find there's a fuckin' big gorilla swinging in the tree at the bottom of his garden. In a state of panic he thumbs the Yellow Pages in search of a "Gorilla Remover"

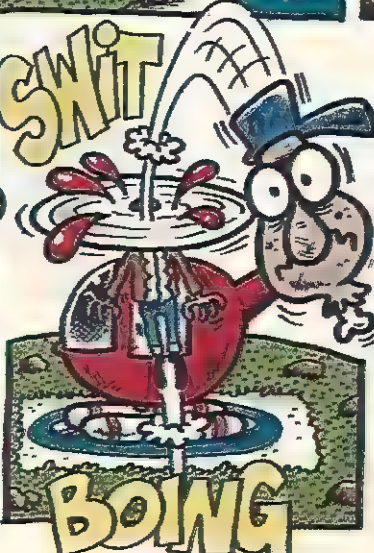

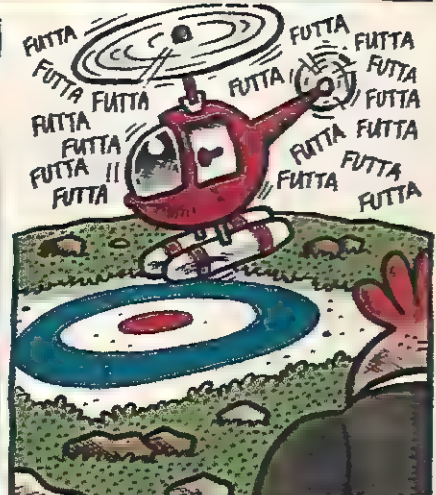

Good enough he finds one, dials the number and ten minutes later there's a knock at the door and when he answers it there stands a little old man with a huge big shotgun and a tiny Jack Russell Terrier. "It's quite straight forward!" explains the old man. "I'll climb up the tree and shake the branches until the gorilla is knocked off balance and as soon as it hits the ground the Jack Russell will pounce on it and chomp on its bollocks". "Great!" says the fellah, "..But what's the gun for?" he asks bemused to which the old man replies, handing over the shotgun; "If I fall, shoot the dog!"

Dear Zit,

I live in a quite cul de sac with my girlfriend. Her mother lives a few doors up and it's all ver y cosy. The other day we got onto the subject of sexual positions and after a few cans of tenants extra I let slip that I really fancied doing it in the wheelbarrow position. After explaining that she would have to walk on her hands whilst I slipped in from behind holding her legs up my bird finally agreed to give it a go. However she had two conditions. The first was that I'd stop if it hurt her, and the second was I had to promise no to go past her mothers!

Dear Zit,
I fuckin' hate it when old people say "If God had meant us to take showers, he would have put our armpits upside down". "Not true", I yell back at them. "If that's the case then if he'd have meant us to take baths he would have given us rubber fuckin suckers on our feet so that we didn't go arse over tit when we stood up". There I feel much better now I've got that off my chest.

EDITOR'S COMMENT

**HAVE WE
GONE
STARK
RAVING
MAD?!**

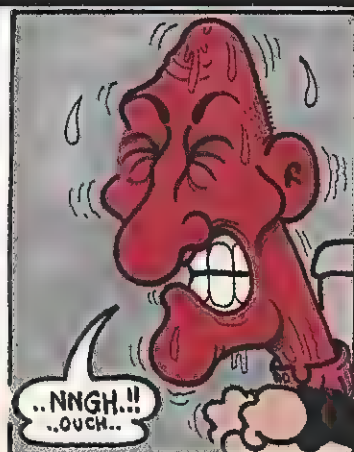

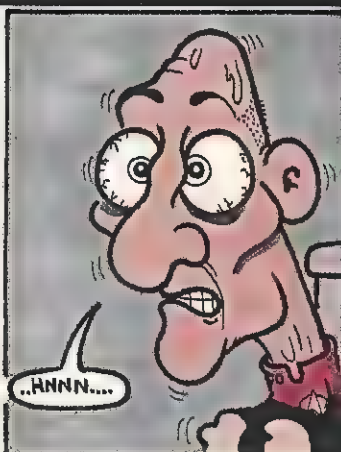

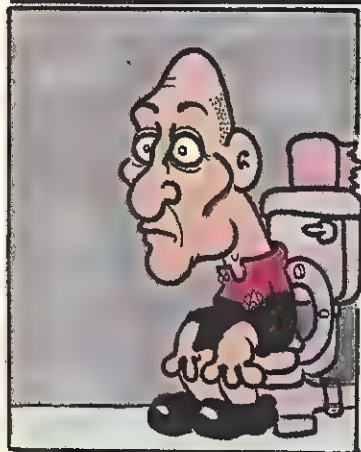

The world has gone Virtual Pet crazy. Why? Can't they see that no matter how much they might like to delude themselves, they are forming close bonds with a quids worth of assorted gizmos?

Apparently, these 'pets' are truly astonishing and will give endless hours of fun. They need all the care and attention that a real pet requires. Obviously you will receive nothing in return. It will not love you, it will not even know you, it can't know you. It does not

have the sensory apparatus nor the required reasoning required to tell one finger pushing a button from another. In essence you are simply wanking yourself emotionally over a glorified digital watch - And while your feeding the little fucker virtual food and cleaning up it's virtual shite, the gerbil you got for christmas last year is starving to death in it's piss drenched cage! So don't be a cunt all your life, get yourself a dog. Dogs are real.

The Editor.

ARMANI JEANS

WHAT TO DO IF YOUR HOUSE CATCHES

1 Do not attempt to touch the flames.

2 Hurl your family out of the window. If they begin to struggle or panic, administer karate chops until they settle down. This may seem harsh, but they'll thank you later.

3 If any animals remain in the building, herd them quickly and calmly into the cellar. The last thing you need when tackling a blaze is a herd of cats stampeding about the shop! Suppose a cat strolled by and collected a flame on his tail. In a matter of days that fire could spread all over town! That's how the great fire of London got done, that is.

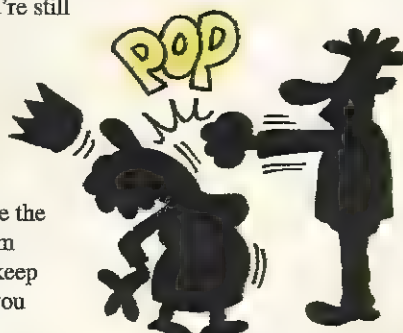

4 Wrap yourself from head to toe in tinfoil, shiny side out. This will deflect any stray heat from your skin.

Shielded thus, you will be able to stride confidently into the heart of the inferno. The situation is now under control.

5 On no account contact the fire brigade. It's bad enough your house being on fire, do you *really* want a gang of big blokes to come swinging axes around as well?

6 Beat the blaze out with a wet tea towel. If this is not

adequate use a hand towel. If you're still struggling try a bath towel. If the flames continue spreading use the back bedroom carpet. Just keep going until you

find the right sized piece of damp fabric for your particular burn up.

7 Do not allow yourself to become mesmerised by the hypnotic movements of the flames. If you feel yourself slipping into a trance, give your system a shock instantly! Pinch a bolt-lock, hard between your thumb and forefinger, plunge your bare foot into a bucket full of iced water, something like that.

8 Douse the flames and then graciously accept the George Cross. A life of fame and fortune awaits you, for you are no longer an ordinary mortal. You are a national hero!

9 Approach Her Majesty the Queen, bow, kiss her ring, then turn round and invite her to kiss yours. She may offer you a cash reward, if so, do not accept her first figure. The Queen is a wealthy fool, and you will easily be able to beat the price up. If you fail to beat the price up, beat her up

EARN £100 + PER HOUR AS A MALE ESCORT

Do you want to have fun, meet lots of interesting women and earn a lot of money? The easiest way to combine all of the above is to become a Male Escort. I became one three years ago I now make a lot of money having the time of my life. I am very much a Mr Average, which I thought would be a disadvantage when I started but I quickly discovered that most Male Escorts are Mr Averages too! My guide will teach you how to duplicate my efforts and become a successful escort yourself. Here's some of what is in my comprehensive guide:

- Why joining an agency is a bad idea
- How to get regular business, easily
- Learn all the mistakes I made, so you can avoid them
- How to set high prices for clients
- Learn how to deal with everything from the first contact with a client, to actually doing the dates
- How to stay within the Law while operating a 'full' service....
- How to be the most interesting person in the world, without really trying, or lying

I charge around £100 per hour for most of my first time clients, and £60 for regular clients. This means that £200 - £300 for spending an evening with a woman is not uncommon!

GUARANTEE: If you feel my guide fails to live up to my claims, return it within 14 days for a full refund.

EX-FRUIT MACHINE ENGINEER REVEALS UNKNOWN SECRETS!!

As seen in National Press

It's better than ever! THE THIRD EDITION of "The Insiders Guide To The Fruit Machines"

Would a £100 a day make a difference to you? With our highly regarded book, which has been updated to include the latest built in cheats, as revealed by an ex-fruit machine engineer, you simply cannot lose on the machines. The old favourites have been modified to work on the latest machines and more legal, requiring no "gadgets" and will not get you barred from any pubs or arcades.

secrets have been added. Most of what you will read is not available in any other guide and all the methods are completely legal, requiring no "gadgets" and will not get you barred from any pubs or arcades.

THE SECRET POWER OF HOLD- A foolproof way to repeatedly line up a win of your choice, in as little as three moves.

SECRET NUDGES- How to turn every nudge into a three symbol win, including The Jackpot, time and time again.

WINNING CYCLES- Payout cycles are explained and you will learn to identify them quickly and keep on a good cycle that could go on until the machine is empty.

WHICH MACHINES TO PLAY, AND WHEN- The key to success really hinges on this. Don't waste your money on a machine that won't pay out. How to instantly know the potential of a machine.

THE ENGINEERS SYSTEM- This is what they use to test the machines and by using it you will empty any machine in less than 10 minutes. This system is amazingly simple and works on nearly every machine made in the last few years.

Also covered are Video Fruit Machines, Ferry Machines, the new 25p machines and other new machines
